CEMBRIT PATINA INLINE

# Walking the line between shadow and light.

Change can take time. But sometimes, a day is all it takes. Cembrit Patina Inline comes with all the qualities of the Patina design line: the strength and durability of the fibre cement. The beautiful patination over time and a natural expression. But the story doesn't end here. Linear-milled indentations in the board provide character and depth to the building – and add a unique playful shadow effect as daylight moves across the building. Patina Inline is the choice for those who truly believe that a building is born to be alive.

# Cembrit Patina Inline

## Properties

### Cembril Patina Inline

Length	2500/3050mm

Cembrit is one of the leading European manufacturers of multi-capability fibre cement building products. Our products and solutions add exciting new design opportunities for moulding attractive, durable settings for people's lives. But Cembrit is more than mere products. We also help make all kinds of design and construction projects easier - as well as more profitable, inspiring and effective.

And for us, every construction project also involves building relationships with people, making your day better, and helping you make the day better for others. Making it a day to remember.
